

# WORKING OUTSIDE

If you like being outdoors, there are many career paths you can take. Draw a line from each of the possible careers to their corresponding picture.

## GEOSCIENTIST

Geoscientists study the physical aspects of the Earth, such as its composition, structure and processes, to learn about its past, present and future.

## SOIL SCIENTIST

Soil scientists evaluate and interpret soils and soil-related data and how it affects environmental and agricultural quality.

## SEARCH AND RESCUE WORKER

Search and rescue workers search for and provide aid to people who are in distress in outdoor situations. Sub-fields include mountain, ground & water rescue or the use of search and rescue dogs.

## OUTDOOR TRIP LEADER

A Trip Leader connects people to the outdoors in a variety of ways such as kayaking, biking, geocaching, rock climbing, hiking and more!

## PARK RANGER

The main responsibility of a park ranger is protecting and supervising designated outdoor areas. They make sure campers, hikers and other visitors follow the rules.

## COMMUNITY EDUCATION COORDINATOR

Community Education Coordinators schedule/teach community programs including visits to schools, summer camps, scout outings, tabling at festivals, leading tree identification walks, and hosting nursery tours.

## WILDLIFE MANAGER

Wildlife Managers inventory wildlife populations and tag animals for study. They protect endangered species, maintain animal populations and control nuisance animals.

## NURSERY MANAGER

Nursery Managers work to address the issue of forest biodiversity by growing a diverse tree stock for local plantings and ecosystem restoration efforts.

## HYDROLOGIST

Hydrologists collect samples of water to test for issues such as bacteria or pollution in the water and analyze the impact on the environment.

## DIRECTOR OF TREE CARE AND REFORESTATION

A Director of Tree Care oversees tree maintenance operations in the field. Working with volunteer groups and staff, they coordinate projects to keep street trees healthy and safe.
